

THE LATE ADMINISTRATION.
Numerous Treaties of importance appear to have been negotiated by this Government during the last six months, of which but little has reached the public, except on the authority of mere rumor. With the late British Treaty, which reflects so much honor on the country, and which we ourselves have emphatically denominated "the Great Treaty," the public has been officially made acquainted.

We have learnt that Treaties have also been made by the Secretary of State with the *Sandwich Islands*, with *New Grenada*, with *Peru*, and *Mexico*.

The Treaty with the *Sandwich Islands* was negotiated with Mr. Jarvis, the Commissioner on the part of his Hawaiian Majesty. It has been, we understand, unanimously approved by the Senate, and intelligence of the exchange of the ratifications, which was to take place at Honolulu, may be soon expected in the United States.

This treaty, we understand, is not only a Treaty of Commerce and Navigation, but contains a Postal arrangement with the *Sandwich Islands*, and a provision for extradition of fugitives from justice.

Of the other Treaties we have no precise information; but we understand that they are considered highly important to the commerce and navigation of the United States.

Beside these Treaties, negotiated by the Secretary of State, under the direction of the late President of the United States, the Convention for the Railroad across the Isthmus at Tehuantepec, and the several Treaties with Nicaragua, San Salvador and Guatemala, with the negotiations for conventions of accession to the Central American or British Treaty, will forever mark the era of President Taylor's administration as one of the most successful for its diplomacy in the history of this country.

National Intel.

Attacked by a Rattlesnake.—As Mrs. Enoch Bryant, of South Danvers, was taking a walk in the garden on Tuesday afternoon, she was attacked by a rattlesnake, which sprang and caught her by the foot. Her screams brought her husband to the spot, who succeeded in killing the reptile. Fortunately Mrs. B. had on at the time a pair of India rubber overshoes, which prevented the fangs from penetrating to the flesh. The snake measured 3½ feet and had nine rattles. —*Freeman*.

The Whirling Bridge Case.—Chancellor Walworth, appointed to take testimony in this case, has entered upon the duties of his office in Pittsburgh, having examined three witnesses on Tuesday last. He left Pittsburgh on Wednesday morning for Butler's hotel, near Turtle Creek, where the remainder of the depositions will be taken.

Capt. Bradley, of the steamer *Corra No. 2*, has been fined \$500 by the recorder of St. Louis for failing to stop his boat at Quarantine island, as required by ordinance.

Wm. Miserva, an old revolutionary patriot, died in Jennings county, Indiana, on the 6th ult., aged 101 years.

The colored population of Pittsburgh intend to hold a celebration on the first of August, the anniversary of the West India emancipation.

The Congressional and Legislative Conventions.

THE WHIG VOTERS OF GALLIA COUNTY will meet in their several townships, at their usual places of holding elections, on Saturday, the 17th day of August, at 3 o'clock P. M., to select delegates to the Congressional convention, to be held at Pomeroy, on Wednesday, the 28th day of August. Also at the same time and place, to select delegates to the Legislative convention to be held at Wilkville, on Saturday, the 7th of September, to nominate one candidate for the counties of Gallia, Meigs, Athens and Jackson, and one candidate for the counties of Gallia and Jackson. The townships of Ohio and Guyan to select one at the place of holding elections in Ohio, and the townships of Walnut and Greenfield to select one at the place of holding elections in Walnut, according to the following apportionment:

Gallipolis 2	Harrison 1
Cheshire 1	Perry 1
Green 1	Clay 1
Springfield 1	Morgan 1
Huntington 1	Wilkesville 1
Raccoon 1	Addison 1
Walnut and Greenfield 1	
Ohio and Guyan 1	

The same apportionment will be observed for both conventions.

In the absence of any of the delegates to either of said conventions, those present are authorized to fill up the vacancies or cast the vote of said absentees.

We earnestly call the attention of the Whigs of Old Gallia, to the importance of a full attendance on these primary meetings, and urge upon them the importance of immediately organizing their several townships for the coming campaign.

GALLIPOLIS MARKET.

July 31, 1850.

Flour \$4 50.
Wheat 75 cents.
Oats 30c.
Corn 45 to 50 cents.
Corn Meal 50c.
Flaxseed 75c.
Butter, 84 to 86c.
Eggs 6c.
Salt, by the barrel, 32c.
Sugar 7c. Molasses 34. Coffee 11 to 12 cents.
Rags from 3 to 3½c. cash.

CINCINNATI MARKET.

Cincinnati, July 26.

Flour and Grain.—The market remains quiet and devoid of interest. The receipts of flour during the last 24 hours comprised 564 bbls, and the sales 150 bbls old, at \$4 35; 51 do inferior at \$3 25, and a small lot of new at \$4 50. The sales of Grain were confined to small lots for consumption at 50c for corn, and 44 to 45c for oats.

Provisions.—We heard of some operations in Lard, but are unable to give the particulars. In Pork or bacon there were no sales.

Whiskey.—The market was heavy to-day, and prices receded; sales from river at 21½; from wagon at 21½; from canal at 21½ to 22c.

Groceries.—There is nothing of interest to notice in the market. Holders of coffee, sugar and molasses continue very firm at full rates, and the demand is very good. For the season; sales of 100 bags coffee at 10½; 30 do at 10½, and of 30 trs clarified Sugar at 64½c, cash.

Cheese.—Sales of 80 boxes selected W. R. at 6c.

SYMPTOMS OF DISEASE.

Should never be disregarded. They are unerring indications that the vital functions of nature have been interrupted in their healthful action, and that serious evils must inevitably follow, unless the system be again set right by the timely use of proper remedies. And, in seeking these, it is all important that resort be not had to drastic purgatives or other medicines of a violent kind, which reduce the strength, and so prostrate the powers of nature, that they are unable to repel the threatened attack.

Be in mind, that nature is ever endeavoring to expel disease when it invades the animal economy, and only needs the assistance of some gentle restorative—thorough, yet mild in its action—that will give tone to the system, and act upon the blood—which is the principle of life.

Guyott's Yellow Dock and Sarsaparilla, as a purifier of the blood, a renovator of the system, and a supporter and preserver of the powers of life, it has no equal. Take it, on the first indication that disease is upon you, and you will avert perhaps weeks and months of sickness and suffering.

See advertisement.

Who that has suffered with that tormenting of all things, corns, but will bear joy the great Arabian Liniment! If persevered in, it never fails to cure, and is just as good for almost all diseases which require an external application; and for animals, no medicine ever discovered has proved so efficacious as H. G. Farwell's Arabian Liniment.

See advertisement.

Beware of a spurious preparation called W. R. Farwell's Arabian Liniment, a base counterfeit, which has just made its appearance.

The Genuine Shaker Sarsaparilla.
As PREPARED BY DR. S. D. HOWE, is a new medicine, now offered for the first time. Its well established reputation has been fairly gained by its numerous remarkable cures during many years of constant use throughout New Hampshire and New York. The Medical profession generally in the Eastern States now recommend, and use in their private practice, this valuable medicine for all diseases arising from impurity of blood.

Shaker Sarsaparilla.

PREPARED BY DR. S. D. HOWE, is the Unrivalled Remedy for all diseases of the Liver, Dyspepsia, Jaundice, and all Bilious Complaints. This valuable FAMILY MEDICINE.

Is prepared with great care, and is PURELY VEGETABLE. Its power over the above diseases is not excelled, if equalled by any other preparation in the United States, as numerous cures attest. IN MANY CASES AFTER SEVERAL PHYSICIANS HAVE FAILED.

A critical case cured by the use of Dr. Howe's SHAKER SARSAPARILLA, and certified by Dr. S. Jackson, a distinguished Physician in Indiana. Such testimony is worth more than a column of ordinary advertisement.

LOCKSMITH, IND., June 10, 1850.

Dr. S. D. HOWE.—Dear Sir: I have been afflicted with a Cough for the last three or four years, which came very near taking me to my grave, despite of all the medical aid from my family physician. I had separated of ever again being restored to health. Six months ago I noticed the advertisement of your Shaker Sarsaparilla, and I immediately sent to procure one bottle, and I began speedily to improve, and I obtained a permanent cure. The result of taking two bottles of Dr. S. D. Howe's Shaker Sarsaparilla has caused me to say to you, and every one whom it may concern, that I am entirely relieved from all cough and pain in the breast.

MRS. N. GRAVES.

The great success which has attended the use of Dr. S. D. Howe's Shaker Sarsaparilla since its introduction into the Western States, has established its character in this section of country.

This is the only Sarsaparilla that acts on the Liver, Kidneys and Blood at the same time, and hence its singular efficacy and success.—Be sure and get Dr. S. D. Howe's Shaker Sarsaparilla, and take no other.

Quart bottles \$1 per bottle or 6 bottles for \$5.

DR. GUYOTT'S

Extract of Yellow Dock and Sarsaparilla.

DR. GUYOTT'S IMPROVED EXTRACT OF YELLOW DOCK AND SARSAPARILLA, put up in the largest sized bottles contains more of the pure *Humulus Sarsaparilla* than any other preparation extant which is chemically combined with the *Extract of Yellow Dock*, the *Extract of Wild Cherry*, the *Balsam of Fir*, thus making the remedy more thoroughly efficient than any other Sarsaparilla before the public. At the same time it is perfectly free from all mineral poisons, which cannot be said of any other of the Sarsaparilla compounds. The invalid should beware of spurious! Mercury, Iron, Quinine, Potash, Iodine, Sulphur, Arsenic, and many other mineral and metallic poisons enter into and form the active base of most of the Sarsaparilla and Purgative compounds. *Dr. Guyott's Improved Extract of Yellow Dock and Sarsaparilla* does not contain a particle of these substances, as any one can easily ascertain by applying the necessary tests.

These poisons may occasionally remove disease, but they so vitiate the blood, and so completely interrupt the whole system with their baneful effects, that the first cold, or the first attack of disease, prostrates the patient's strength, and subjects him or her to the most excruciating tortures, and renders another cure almost impossible and hopeless. Let all poisonous Sarsaparilla preparations alone, and use *Guyott's Improved Extract of Yellow Dock and Sarsaparilla*, which is thoroughly efficacious, perfectly harmless, and purely vegetable. All kinds of disease yield to its genial influence.

CURES.

Scrofula, Cancerous Tumors, Cutaneous Eruptions, Erysipelas, Bites, Pustules, or Pimples on the Face, Chronic Sore Eyes, Tetters, Scald Head, Rheumatic Enlargement of the Glands, Bores or Ulcers, and all stubborn Ulcers, Fever Sore, Hip Disease, Swelling of the Glands, Blotches, Syphilitic Symptoms, Lumbago, Dropsy, Dyspepsia, Jaundice, Catarrhes, Hemorrhoids, Gonorrhea, Affections of the Kidneys and bladder arising from an injudicious use of Mercury, Minister's Sore Throat, Weakness of the Chest, Pulmonary Affections, and all other diseases tending towards Consumption, Liver Complaint, Chronic Constipation, and Complaints of the Stomach, Headache, General Debility, Low Spirits, Loss of Appetite, Night Sweats, Pains in the Side and Shoulders, Exposure of Impudence in Life, Chronic Constitutional Disorders, and a Cough and Fall Paralysis of the Limbs, and all General Tonic for the System, it is unrivalled.

A Case of Ulcerated Limbs of sixteen years standing.

The following is an extract of a letter, dated March 27, 1850, from E. B. Perkins, M. D. highly respectable physician of Marietta, Ohio: *JOHN PARK*.—Dear Sir: I have under my care a young woman who, for sixteen years, has been suffering from Ulcerated Limbs, and the corruption within the limbs of said limbs, which has been in this way for several years, when with seven others I succeeded in raising her up, which was the only way it could be done, when I commenced the use of your excellent liniment, rubbed in well over the limbs, and astonishing as it may seem, before I used up a bottle of the dollar size, she was able to get up and walk herself. I would not have given ten dollars for her before, and many advised me to shoot her to put her out of misery; she is now one of my best patients. I suppose it was a strain in the limb.

Very respectfully, E. B. PERKINS.

An Extraordinary Case of Quick Consumption.

Youngville, Warren co., Pa., July 1st, 1850. Messrs. S. P. BENNETT & Co.—Gents: I wish to express my thanks to you for the great benefit your *Extract of Yellow Dock and Sarsaparilla* has been to me. My mother has a violent attack of Erysipelas in March last, which left her with a violent cough, hectic fever, and severe night sweats. Our physicians despaired of her recovery and stopped prescribing for her, promising her but a few days to live. I procured your medicine and she could not live but a very few days. We all despaired of her recovery, and did not expect her to live from one day to another. Her life was reduced to the point of death, and she was completely exhausted and perfectly helpless. At this critical time, I saw your advertisement in the *Pittsburgh Gazette*, and immediately sent to your agent, in Franklin, for three bottles, which she commenced taking, and from the first day she began to mend, and continued to do so up to this time. She is now able to attend to her household affairs, and is perfectly well, though not as strong as she was before she was sick.

There are a great many of our citizens, that are very anxious to get prior to the autumn, and as it is fifty miles to your nearest agency, I think it would be of an advantage to you, and a great blessing to the afflicted, to establish an agency here.

Please accept our thanks and gratitude for the restoration of health to our dear mother.

Your obedient servant,

TRUMAN A. HALL.

The best female medicine known. The Extract of Yellow Dock and Sarsaparilla is a positive, speedy, and permanent cure for all complaints incident to the female sex.

It is immediately applicable to the slender and delicate constitution of the female. It is unrivalled in its effects upon such diseases as include consumption, barrenness, leucorrhoea, or white irregular menstruation, incontinence of urine, and general prostration of the system. It immediately counteracts that distressing nervousness and lassitude so common to the female frame, and imparts an energy and buoyancy as surprising as they are grateful. We have evidence on file which induces us strongly to recommend this medicine to married people who have not been blessed with offspring.

PROLAPSE UTERI, or Falling of the Womb, of five years' standing, cured by Dr. Guyott's Extract of Yellow Dock and Sarsaparilla, after every other known remedy has been tried without relief.

W. WATKINS, Ohio, Feb. 1849.

This certifies that my wife, aged 27 years, has been suffering under the above complaint for five years—nearly all of that time confined to her bed. I have for four years constantly employed the best medical aid, but could not be procured in this section of the country, without any benefit whatever. I have also purchased every instrument recommended for the cure of such disease, all of which proved worthless.

In the spring of 1848, I was induced by my friends to try Dr. Guyott's Yellow Dock and Sarsaparilla, which was used for four months. After she had used it for about four weeks, it was a relief to all that she was improving rapidly, and gained flesh and strength, until the disease was entirely removed, and she is now enjoying most excellent health.

WM. MONFORT.

We bring neighbors of Wm. and John Monfort to that the above statement is to the sickness of Mrs. Monfort, and so to the cure being effected by Guyott's Yellow Dock and Sarsaparilla, to be strictly true.

WE DAILY hear of the most astonishing

cures being effected by that great and popular medicine, the genuine

H. G. FARRELL'S ARABIAN LINIMENT.

The greatest remedy ever discovered for almost all complaints requiring an external application, either in man or beast. In the short length of time it has been introduced to the people of the United States, it has gained a reputation unequalled by any other medicine in the known world. Why? The answer is plain: because no medicine of the kind has ever been put before the public so deserving of the rich laurels it has acquired; and it will continue to gain friends as long as it performs the most extraordinary cures of various descriptions, after the doctors and all other remedies have failed. We do not only say that the genuine H. G. Farwell's Arabian Liniment cures and does perform cures which no other medicine can do, but you have here certain evidence to the fact.

Thaddeus Smith, of Middletown, Tennessee, says: "I had lost the use of my arm for more than a year by palsy or paralysis; the flesh had entirely withered away, leaving nothing but skin, muscles and bone. I tried all the best doctors and all the remedies I could hear of, but they did no good. I then commenced the use of H. G. Farwell's Arabian Liniment, and a few bottles entirely cured me, and my arm is now as strong and fleshy as the other. It also first cured my rheumatism, sprains and bruises, and was cured by H. G. Farwell's Arabian Liniment. He also says: "Your liniment is going rapidly; send me a supply immediately by Leech's fast line."

"My daughter, when 6 months old, was taken with a swelling in the tonsils, which grew larger and larger, till when 5 years old she had great difficulty in swallowing her food. Every night, sleep was kept, fearing she would suffocate. The best doctors attended her, but could give no relief. I took her to the most eminent doctor in the East; they said there was no help for her but to cut it out. With a sad heart I returned home with her, when she became so much worse that the doctors had to be called in again; they decided the tonsils must be cut out, as the only chance of giving relief. My wife would not consent to this, and she determined to try your liniment, which gave relief the very first application, and by a continued use she entirely recovered. She is now 10 years old, and healthy and as could be desired. Your liniment is also the best in use for sprains, bruises, cuts, burns, headache, &c.; and it will remove the most severe pain in a few minutes. It also cured colds under my eye in a few days.

GEORGE FORD.

Pomeroy, March 30, 1849.

Mr. H. G. Farwell: Your Arabian Liniment is the greatest medicine for horse flesh in the world. I had a mare about to foal, when she became so helpless that she could not rise from the ground; she was in this way for several days, when with seven others I succeeded in raising her up, which was the only way it could be done, when I commenced the use of your excellent liniment, rubbed in well over the limbs, and astonishing as it may seem, before I used up a bottle of the dollar size, she was able to get up and walk herself. I would not have given ten dollars for her before, and many advised me to shoot her to put her out of misery; she is now one of my best patients. I suppose it was a strain in the limb.

G. W. HUNT.

Pomeroy, Ills. July 2, 1849.

LOOK OUT FOR COUNTERFEITS! As they are in circulation. The true and only genuine H. G. Farwell's Arabian Liniment is a remedy with the H. G. initials, before Farwell's, thus, "H. G. Farwell's Arabian Liniment," and his signature is also on the label of the bottle, and these words are blown in the glass bottle. "H. G. Farwell's Arabian Liniment, Pomeroy." Do not touch any other, and look well before you purchase, or you will get imposed upon.

Manufactured only by H. G. Farwell, sole inventor and proprietor, and wholesale Druggist, 17 1/2 Main street, Pomeroy, Illinois, to whom all communications must be addressed. I used up a bottle of the dollar size, she was able to get up and walk herself. I would not have given ten dollars for her before, and many advised me to shoot her to put her out of misery; she is now one of my best patients. I suppose it was a strain in the limb.
